*Patient is generally given the image data to take away with them on the day – both SIRONA DICOM Export Wrap & Go and/or Raw DICOM data (to be imported into your own CT Viewing software – Simplant, iCat Vision, CS-3D etc.)

The CBCT image will be reported on by the referring dentist as per your service level agreement - we can arrange for an outside source to report on findings at an additional cost.

Important information: it is essential that you complete all sections of this form in full.

All incomplete forms will be returned to the referring dental practice, which may result in a delay in your patients' treatment.

The referring practice will be responsible for ensuring the clinical evaluation takes place and is properly recorded.

Signature of referring dentist:

If you do not have a digital version of your signature available please type name in signature area to the left and check the box above to acknowledge the inclusion of all data required for us to proceed.
